DEMONSTRATION WORKSHOP WHERE ART MEETS CRAFTSMANSHIP

Our porcelain shows what it's capable of in the demonstration workshops: true craftsmanship, loving attention to detail and several different work stages. Gaze over the shoulders of our porcelain artists and experience a piece of Meissen taking shape – including the processes of throwing items, putting them together and painting them. Our knowledgeable porcelain crafters will be glad to answer any queries you may have.

MUSEUM PORCELAIN TRADITION IN A MODERN GUISE

On a tour of the Museum run by the Meissen Porcelain Foundation you will encounter no end of exhibits from all stylistic eras embraced by Europe's oldest porcelain manufactory. Immerse yourself in the history of the Meissen Manufactory from 1710 to the present day. There are huge sculptures to wow you as well as unique, mind-boggling creations such as the opulent Swan Service from the age of Augustus III. Exhibits are staged in a modern manner with interactive features, illuminated objects, projections, sound effects, film sequences and media stations with additional information that really bring the evolution of our world-famous Meissen porcelain to exciting life. Kids can playfully explore our Museum by going on a thrilling MEISSEN safari or tablet-based rally.
